

# Quantum Open Day

23.10.2023

18:00-20:30

Physics Faculty, room 323

Short presentation of projects &  
researches by faculty members  
followed by a poster session

With Pizza & Beer 😊

Feel a bit of a particle and a bit of a wave?  
Considering adopting a Schrödinger's cat? Come  
hear about possibilities for you in quantum science  
and technology!

The Helen Diller Quantum Center at the Technion  
invites you, undergraduate and graduate students,  
to hear about options for projects and an advanced  
degree in the multidisciplinary, rich and fascinating  
quantum world.

Please note- event not only for experts!

The advantage of quantum science and technology  
is that you can start already after Algebra 1!

Waiting to see you!
