

Call for proposal- the Helen Diller Quantum Center excellence scholarships for graduate students in Quantum science and Technology 2024-2025

The Helen Diller Quantum Center is awarding scholarships to outstanding students in the field of quantum science and technology studying at the Technion. The scholarships aim to encourage students to engage in this important research field.

The main criterion for receiving the scholarship is the extent of scientific output, as demonstrated by publications in scientific journals and conferences in the quantum field. If the supervisor believes that the student excels in research but the scientific output will only come later, this should be explained in the recommendation letter.

The recipient will receive one additional scholarship beyond the approved amount for this period. The additional scholarship will be granted for the months October 2024 to September 2025 (inclusive), subject to the specified conditions below.

Note: Candidates who receive or have applied for a named scholarship/an external scholarship - can apply for the Helen Diller Quantum Center excellence scholarships, pending the approval of the Technion graduates' school and according to the guidelines of the external/named scholarship that the student has received or has applied for.

Criteria

Technion scholarship recipients receiving 4 or more monthly scholarships in the academic year 2024-2025 – Please do not apply if you do not have at least 11 months of continuous scholarship this year (October 2024 to September 2025, inclusive).

An exceptional submission approval will be examined per case.

Special application submission approval will be given to master students who began their studies in March 2023. These students are granted 24 months of continuous scholarship and have an approved 6a scholarship extension, for the 2024-2025 academic year. In other words, master students who have an approved scholarship for 11 months in the 2024-2025 academic year (between the months of October 2024 and August 2025, inclusive).

Required Documents:

1. Application Form: Submission is through the below electronic form.
2. Recommendations: Please submit 2 recommendation letters from faculty members familiar with the candidate (one must be from the supervisor) directly to quantum@technion.ac.il. If there is more than one supervisor, please submit a letter from each.

Ensure compliance with all the above criteria. Candidates who do not meet all the conditions will not be discussed in the committee.

Deadline for submission: March 16, 2025.

Answers will be sent during April-May 2025.

Sincerely,

Professor Yossi Avron,

Head of the Quantum Center
